PREVIOUS ACTION

On December 8, 2015 the Board approved a resolution to augment the Regional Public Safety Training Center (RPSTC) Fund to increase expenditure authority for Equipment Capital to complete projects as approved by the RPSTC Executive Board on September 17, 2015.

AGENDA ITEM # 6E

BACKGROUND:

The Cargo Container Building props will be used for emergency response training for local partnering agencies. Falcon Structures will deliver the completed cargo container building props free-standing and complete configuration and installation as required on an existing concrete pad area at the Regional Public Safety Training facility campus.

BACKGROUND CONT.

In 2013 a proposed plan was submitted to the Regional Public Safety Training Center's operations committee, where a master plan was developed for future props to enhance the city grid area for the training of fire, law enforcement, paramedic students and sworn personnel. Phase one of the plan was approved by the Managers/Executive boards in September, 2015 with the plan of moving forward with the project before the end of FY15-16. This will enhance training opportunities for our local emergency first responders.

In accordance with the provisions of NRS 332.039, the Washoe County Purchasing Office solicited bids for Cargo Container Building Props. The Invitation to Bid was duly advertised in the Reno Gazette-Journal and made available through the online services of www.DemandStar.com resulting in the receipt of a single bid from Falcon Structures.
